

**PRESS RELEASE**

**31 December 2021**

**INACCURATE INFORMATION ON COVID-19 POSITIVITY AT LUZIRA COMPLEX.**

On Tuesday 28 December 2021, the social media was circulated with inaccurate information about the Covid-19 status quo at Luzira Complex.

The memo had a typing error about percentage levels of 77% active cases instead of 7.7% of tested samples of the previous day and was not meant for the public.

Facts are that by that date Uganda Prisons Service as a whole had 22 active cases of prisoners and 05 active cases of staff.

The other information in the memo refers to general and specific guidelines of Ministry of Health and Ministry of Public Service.

Therefore the Public is requested to disregard the false circulating internal memo.
